

Let's Reflect!

We want to hear from you! - Please place a sticky note in one of these categories:

Renewable Ravenswood will take years of permitting, design, and construction to complete. While the end goal can seem far away, it's important to remember that **your feedback and partnership today will make a difference and directly inform our plans!** Together, we can set the stage for transformational change in Western Queens.

Our vision for the future of Ravenswood includes:

- **Nationwide legacy beginning in Western Queens**
- **Environmental justice**
- **Reliable energy and fewer emissions**
- **Protecting essential union workers**
- **Spreading the benefits of a green economy and ensuring that everyone (that means you!) has the opportunity to train and qualify for new jobs**
- **Commitment to transparent engagement**
